MANY THOUSAND NEW PEOPLE DUE IN MEMPHIS SOON

More than 10,000 new people are due in Memphis soon. They live now rather close to the city but after Dec. 1 they will be counted as part of the city's population and will be so enumerated in the next census, which will be taken early in the year.

The act extending the corporation limits so as to include the present town of Binghamton and considerable territory to the east and south takes effect on that date. The population of the territory to be annexed, according to the census of 1910, was about \$500. The sections added to the city are rather more thickly populated now and the estimates are that not less than 10,000 persons, possibly a thousand or so more than that, now live there.

There are enough territory and enough population to form about five more city wards, and the new administration probably will, soon after the first of the year, by ordinance create that number of new wards and fix their boundaries.

The present town of Binghamton probably will form one new ward. Another can be formed in the section between Binghamton and the Tri-State fairgrounds, a third in the Orange Mount section.

There is enough new territory to the south to form two more new wards. Memphis has 12 wards now and if five are added will have in the next election, which probably will be the general presidential election next November, 17 wards.

There are 14 city election precincts. Assuming that each new ward will have two voting places, there will be next year 48 election precincts. The voting places, both for the city and the county, are fixed by the county court.

Under the annexation act no new territory is added to the north. The new city limits will run from Binghamton southward with Bunton avenue and Park avenue to the projection of the South parkway.

The line follows the parkway to South Cooper, then extends a block further south to South Belvedere. From that point it follows Kerr avenue for a short distance, and around Calvary cemetery, which it left outside the city limits.

From the point where Kerr avenue and the Jewish cemeteries join the new line runs almost due west to the Horn Lake road and thence westward to Riverside avenue, which runs on the east side of Riverside park, and then follows the line of the city limits around to the south and thence westward to the river.

If all of New South Memphis had been added this year it is estimated that the new population would have been around 20,000 and the thickly built-up section north of the city would have added many more.

Dermatologist Gives Complexion Secret

"The great secret of keeping the face young is to keep off the dead cuticle," says Dr. J. Mortimer Mitchell. "It is well known that the surface skin is constantly dying, falling off in imperceptible particles, except in some diseased conditions, when the same appears like dandruff. But the particles do not all drop off immediately they die, being held for a while by the live skin."

"To have the dermatological surgeon peel off the entire outer skin at one time is a painful and expensive operation. The same result is obtained by applying mercurized wax, as you would cold cream, allowing this to remain on over night, then taking it off with warm water. One ounce usually suffices. The process is both painless and inexpensive. The wax, which is procurable at your drug store, hastens the natural shedding process. It gradually absorbs the dead and half-dead skin, revealing the new, healthy, youthful-looking skin underneath."

SPECIAL BODY WILL AID JACKSON CENSUS

JACKSON, Tenn., Nov. 12. (Sp.)—Jackson will show a population of 25,000 in the federal census of 1920 if the census enumerators by the people, it was estimated today by a number of prominent citizens who were discussing the matter.

H. D. Barry, of Lexington, census supervisor for the Eighth district, is very anxious that as complete enumeration as possible be made in Jackson and Madison county as well as the remainder of the district. To this end he is already soliciting the support of the city authorities, federal agents and others who will be in a position to help him in a campaign of publicity and education.

Mayor Johnson stated today that Jackson had been materially injured by the incorrect census report of 1910 and that he was heartily in sympathy with the plan of appointing a committee of publicity and education to assist the census enumerators. Mayor Johnson will take the matter up with Supervisor Barry at an early date and will take those steps which they together deem advisable.

It is the opinion of those best fitted to know that the full strength of Jackson and Madison county could be listed only by the aid of a special committee on publicity and education and the co-operation of the public, otherwise there will be a large number of those who will not be listed. By appointing this committee to conduct a campaign of publicity and education, it is believed that by the time the census is taken in January, everybody in Jackson would be fully conversant with the absolute necessity of listing himself or herself.

The census report of 1910 gave Jackson only 15,700 people, or 5,000 fewer than the number who were actually residents of the city. Since the 1910 census Jackson has extended its city limits on the north, east and west and it is thought that fully 1,000 or perhaps 1,500 people were added to the municipality proper.

The postmaster and carriers can be of material assistance to the enumerators by furnishing names of residents and names, etc. It is incumbent upon the local postoffice officials as federal employees to lend their assistance in the movement and their complete co-operation can be relied upon, it is stated.

MADISON COUNTY WILL EXTEND RED CROSS ROLL

JACKSON, Tenn., Nov. 12. (Sp.)—In view of the fact that Madison county's quota of 8,000 members has not been raised in the Red Cross roll call which was scheduled to close today, the campaign has been extended until Thanksgiving day. Director Paul Haidridge announced today that the members secured by the industrial division and the branch chapters in the rural districts.

Mrs. I. B. Tigrett has been appointed as director of the Woman's division in the absence of Mrs. Walter Stigall. It is planned to renew the campaign of the woman's division and solicit the membership of those who have not yet responded to the roll call.

The war veterans' division and the men's division remain at work, but it is planned to increase the efforts of these teams. An appeal is made for both workers and subscribers. Plans are now under way to effect a systematic drive in the city on circus day, Nov. 18, and solicit the membership of every one not wearing a Red Cross button. It is also planned to exhibit a Red Cross float in connection with the circus parade.

BRYAN FAVORS WAR REFERENDUM PLAN

HOT SPRINGS, Ark., Nov. 12.—William Jennings Bryan in an Armistice day address here Tuesday urged a referendum by the people on the question of war, in event of another struggle, and said that while he did not claim all wars are not justifiable, with a referendum and women voting "the womanhood of the nation will lift the manhood of the country above the level of the battlefields."

DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet—colds of the chest (it often prevents pneumonia). It is always dependable. 30c and 60c jars; hospital size \$2.50.
